

REGISTRATIONS ARE OPEN FOR THE INTERNATIONAL HARDWOOD CONFERENCE

The French Fédération Nationale du Bois, together with the European Organisation of the Sawmill Industry (EOS) and the European Timber Federation (ETTF), invite you register for the International Hardwood Conference.

On 28 October 2022 the International Hardwood Conference will take place in Lyon, the vibrant city in South Eastern France. The Conference will be anticipated on October 27 by a day of visit to two first-class companies, the sawmill LBSA in the morning and the coffin producer OGF in the afternoon.

After the visits to the companies the traditional welcome cocktail will take place, then the conference will officially start the following morning and will be followed, as usual, by a gala dinner at the gourmet restaurant Paul Bocuse. The details of the program, which is being finalized, as well as all information on how to register can be found at the official site of the conference: <https://www.ihc2022.fr/en>, which is available in many languages. A partner program will be organized if enough participants are interested in it.

The conference will offer the opportunity to analyze trends in the timber market focusing on topics of interests for the hardwood industry. While the pandemic and the present geopolitical turmoil have had and are having strong repercussions on the hardwood business and the wider economy, the conference will focus also on the future as the challenges and opportunities for the traders and sawmillers alike are abundant.

The markets will be deeply scrutinized, as well as the availability of raw materials, the customer industries and research and innovation relevant for the sector.

SPONSORSHIP OPPORTUNITIES: Do you want to be one of our sponsors?! Don't miss this opportunity and check the sponsorship packages available here:
